PlastPrime, produtos com excelência para a indústria

Líder há mais de 25 anos no segmento de projetos e soluções técnicas em diversos materiais, a PlastPrime (antiga Ureplast) é especializada no desenvolvimento de produtos plásticos e artefatos de borracha voltados aos segmentos **Alimentício, Automotivo, Bebidas, Madeireiro, Manutenção Industrial e Náutico**.

A empresa já conta com mais de 1.200 moldes, que possibilitam a produção de mais de 2.500 tipos de peças diferentes, de alta resistência e qualidade garantida.

Excelência nas técnicas e processos e profissionais altamente qualificados permitem à PlastPrime atender aos seus clientes com agilidade no atendimento, na produção e na entrega de suas demandas.

Essas características de alto desempenho são atestadas também pelo tamanho do mercado que a empresa atende, que não se restringe somente a empresas brasileiras, mas se estende também a parceiros que em 6 países do Mercosul.

Neste catálogo, você vai encontrar as especificações e desenhos técnicos das peças produzidas pela PlastPrime. E sempre que precisar de uma solução confiável em peças plásticas ou artefatos de borracha, já sabe quem procurar.
